Contents

VOLUME 21, NUMBER 1, FEBRUARY 1996
Published 31 January 1996

FRANK BURGHARDT and KONRAD FIEDLER
The influence of diet on growth and secretion behaviour of myrmecophilous *Polyommatus icarus* caterpillars (Lepidoptera: Lycaenidae) 1–8

J. BUTTERFIELD
Carabid life-cycle strategies and climate change: a study on an altitude transect 9–16

GÉRARD DONZÉ, MIRIAM HERRMANN, BORIS BACHOFEN and PATRICK M. GUERIN
Effect of mating frequency and brood cell infestation rate on the reproductive success of the honeybee parasite *Varroa jacobsoni* 17–26

D. S. GUERTIN, P. J. ODE, M. R. STRAND and M. F. ANTOLIN
Host-searching and mating in an outbreeding parasitoid wasp 27–33

CAROL C. LOEFFLER
Adaptive trade-offs of leaf folding in *Dichomeris* caterpillars on goldenrods 34–40

MARK A. JERVIS, BRADFORD A. HAWKINS and NEIL A. C. KIDD
The usefulness of destructive host feeding parasitoids in classical biological control: theory and observation conflict 41–46

TAKAYUKI OHGUSHI
Consequences of adult size for survival and reproductive performance in a herbivorous ladybird beetle 47–55

JONAS SANDSTRÖM
Temporal changes in host adaptation in the pea aphid, *Acrythosiphon pisum* 56–62

REGULA SCHMID-HEMPEL and PAUL SCHMID-HEMPEL
Larval development of two parasitic flies (Conopidae) in the common host *Bombus pascuorum* 63–70

K. SCHÖNROGGE, G. N. STONE and M. J. CRAWLEY
Alien herbivores and native parasitoids: rapid developments and structure of the parasitoid and inquiline complex in an invading gall wasp *Andricus quercuscalicis* (Hymenoptera: Cynipidae) 71–80

PETER SOWIG
Duration and benefits of biparental brood care in the dung beetle *Onthophagus vacca* (Coleoptera: Scarabaeidae) 81–86

P. G. WILLMER, J. P. HUGHES, J. A. T. WOODFORD and S. C. GORDON
The effects of crop microclimate and associated physiological constraints on the seasonal and diurnal distribution patterns of raspberry beetle (*Byturus tomentosus*) on the host plant *Rubus idaeus* 87–97

SIMÃO D. VASCONCELOS, TREVOR WILLIAMS, ROSEMARY S. HAILS and JENNIFER S. CORY
Prey selection and baculovirus dissemination by carabid predators of Lepidoptera 98–104

Short Communication

MARC RHAINDS, GERHARD GRIES and JUAN LUIS MORALES
Oviposition deterrency in pineapple borer females, *Thecla basilides* (Lepidoptera: Lycaenidae) 105–106

VOLUME 21, NUMBER 2, MAY 1996
Published 16 April 1996

J. B. ANDERSON and L. P. BROWER
Freeze-protection of overwintering monarch butterflies in Mexico: critical role of the forest as a blanket and an umbrella 107–116

ROBERTO BARRERA
Competition and resistance to starvation in larvae of container-inhabiting *Aedes* mosquitoes 117–127

CHERYL J. BRIGGS and JOHN LATTO
The window of vulnerability and its effect on relative parasitoid abundance 128–140

MOSHE COLL and DALE G. BOTTRELL
Movement of an insect parasitoid in simple and diverse plant assemblages 141–149

© 1996 Blackwell Science Ltd

SIMON HODGE and WALLACE ARTHUR
Insect invasion sequences: systematic or stochastic? 150–154

ANDREW CORBETT and JAY A. ROSENHEIM
Impact of a natural enemy overwintering refuge and its interaction with the surrounding landscape 155–164

J-L. HEMPTINNE, A. F. G. DIXON and G. LOGNAY
Searching behaviour and mate recognition by males of the two-spot ladybird beetle, *Adalia bipunctata* 165–170

KALEVI KUUSELA and ARI HUUSKO
Post-emergence migration of stoneflies (Plecoptera) into the nearby forest 171–177

M. LEPONCE, Y. ROISIN and J. M. PASTEELS
Reproductive mechanisms and dynamics of habitat colonization in *Microcerotermes biroi* (Isoptera: Termitidae) 178–184

TOOMAS TAMMARU, KAI RUOHOMÄKI and KARI SAIKKONEN
Components of male fitness in relation to body size in *Epirrita autumnata* (Lepidoptera, Geometridae) 185–192

COLLEEN E. SCULLEY and CAROL L. BOGGS
Mating systems and sexual division of foraging effort affect puddling behaviour by butterflies 193–197

Short Communication

ANDREW FOGGO
Long- and short-term changes in plant growth following simulated herbivory: adaptive responses to damage? 198–202

VOLUME 21, NUMBER 3, AUGUST 1996
Published 23 July 1996

MARIANO BERDEGUE, JOHN T. TRUMBLE, J. DANIEL HARE and RICHARD A. REDAK
Is it enemy-free space? The evidence for terrestrial insects and freshwater arthropods 203–217

KEVIN M. HEINZ
Host size selection and sex allocation behaviour among parasitoid trophic levels 218–226

HEATHER L. GEITZENAUER and ELIZABETH A. BERNAYS
Plant effects on prey choice by a vespid wasp, *Polistes arizonensis* 227–234

RICCARDO BOMMARCO and BARBARA EKBOM
Variation in pea aphid population development in three different habitats 235–240

J. M. ELLIOTT
Temperature-related fluctuations in the timing of emergence and pupation of Windermere alder-flies over 30 years 241–247

SHON S. SCHOOLER, ANTHONY R. IVES and JASON HARMON
Hyperparasitoid aggregation in response to variation in *Aphidius ervi* host density at three spatial scales 249–258

STEVEN C. KRAUSE and KENNETH F. RAFFA
Defoliation tolerance affects the spatial and temporal distributions of larch sawfly and natural enemy populations 259–269

GRETCHEN A. MEYER and RICHARD B. ROOT
Influence of feeding guild on insect response to host plant fertilization 270–278

F. SLEAFORD, D. E. BIGNELL and P. EGGLETON
A pilot analysis of gut contents in termites from the Mbalmayo Forest Reserve, Cameroon 279–288

HUBERT R. SPIETH and ANDREAS KASCHUBA-HOLTGRAVE
A new experimental approach to investigate migration in *Pieris brassicae* L. 289–294

RONALD J. PROKOPY, JIAN JUN DUAN and ROGER I. VARGAS
Potential for host range expansion in *Ceratitis capitata* flies: impact of proximity of adult food to egg-laying sites 295–299

Short Communications

JACO M. GREEFF and STEPHEN G. COMPTON
Sequential oviposition and optimal sex ratios in pollinating fig wasps 300–302

PAUL EADY and SIMON TUBMAN
Last-male sperm precedence does not break down when females mate with three males 303–304

ETIENNE SIROT
The pay-off from superparasitism in the solitary parasitoid *Venturia canescens* 305–307

VOLUME 21, NUMBER 4, NOVEMBER 1996
Published November 1996

JOHN ALCOCK
Male size and survival: the effects of male combat and bird predation in Dawson's burrowing bees, *Amegilla dawsoni* 309–316

A. M. BARKER and C. J. M. MACZKA
The relationships between host selection and subsequent larval performance in three free-living graminivorous sawflies 317–327

STEPHEN F. BOZER, MATTHEW S. TRAUGOTT and NANCY E. STAMP
Combined effects of allelochemical-fed and scarce prey on the generalist insect predator *Podisus maculiventris* 328–334

ALAN BUSE and JOHN E. G. GOOD
Synchronization of larval emergence in winter moth (*Operophtera brumata* L.) and budburst in pedunculate oak (*Quercus robur* L.) under simulated climate change 335–343

ANN L. HERZIG and RICHARD B. ROOT
Colonization of host patches following long-distance dispersal by a goldenrod beetle, *Trirhabda virgata* 344–351

PETRA HIRSCHBERGER and HELGA NAVINA DEGRO
Oviposition of the dung beetle *Aphodius ater* in relation to the abundance of yellow dungfly larvae (*Scatophaga stercoraria*) 352–357

DEBORAH L. JACKSON and ANTHONY F. G. DIXON
Factors determining the distribution of the green spruce aphid, *Elatobium abietinum*, on young and mature needles of spruce 358–364

E. POLLARD, P. ROTHERY and T. J. YATES
Annual growth rates in newly established populations of the butterfly *Pararge aegeria* 365–369

RALF SCHINDEK and MONIKA HILKER
Influence of larvae of *Gastrophysa viridula* on the distribution of conspecific adults in the field 370–376

SARAH A. VANCE and BARBARA L. PECKARSKY
The infection of nymphal *Baetis bicaudatus* by the mermithid nematode *Gasteromermis* sp. 377–381

T. M. WITHERS and M. O. HARRIS
Foraging for oviposition sites in the Hessian fly: random and non-random aspects of movement 382–395

Short communication

LORNE D. ROTHMAN and JUDITH H. MYERS
Is fecundity correlated with resistance to viral disease in the western tent caterpillar? 396–398

Book review 399
